

cs101 Vu Current Assignment No.2

Spring 2012 Solution

```
<html>
  <head>
    <script language="javascript">
      function checkemail(){
        var inputText=document.getElementById("input").value;
        alert(inputText);
        var inputText_Length=inputText.length;
        if(inputText_Length > 21 ){
          alert("String Length is Not Vailed." + inputText);
        }
        String_1=inputText.substring(11);
        String_2=inputText.substring(0,11);
        if(String_1 != "@vu.edu.pk"){
          alert("E-Mail Address Not Correct...Please Type email address in this format
          mc120202689@vu.edu.pk");
        }
      }
    </script>
  </head>
  <body>
    <form id="form1" name="form1" method="post" action="">
      <table width="100%" border="1" cellspacing="15" cellpadding="15">
        <tr>
          <th width="27%" scope="row">Student Email ID</th>
          <td width="73%"><label>
            <input name="input" type="text" id="input" size="50" />
          </label></td>
        </tr>
        <tr>
          <th colspan="2" scope="row"><label>
            <input type="submit" name="button" id="button" value="Check E-Mail"

```

```
onClick="checkemail();" />
</label></th>
</tr>
</table>
</form>
</body>
</html>
```
