

MGT713 FINALTERM 2013,

4 in one

Thanks TO Mamoon Ikram

www.vchowk.com

1- Ali ik din m 2 tablets khata hai , aur her order usko 5 din baad milta hai , to btao wo re-order kb kry?

a. Note: wrking do poori

2- Slake time nikalna tha 3 activities ka.

3- As job designer apki kya compensations hyn.

4- Lec 42 mein sy FCFS and EDD , with examples btana tha

a. Isko waiting lines sy relate kiya hua tha..

5- Linear programming kya hti , aggregate planning m iska kya role hta.?

6- Ik stamtement the benchmark ki , uski favor m 5 lines.

7- Inventory management kya kya kaam hta org mein?

8- JIT health care unit m kesy kaam kerti?

1. Define linear trend equation and elaborate linear trend equation formulae (3 marks)

2. Role of rough cut capacity planning in aggregate planning (3 marks)

3. Being an OM what significant issues you have to consider while implementing supply chain management (3 marks)

4. Assignment model for linear programming (3 marks)

5. Being an OM you are required to generate demand forecast what factor would help you to ensure effectiveness of forecast (5 marks)

6. Load report? Reveal its significance scheduling(5 marks)
7. ABC textile MFG. why need to apply why need to apply supply chain management in particular case(5 marks)
8. Johnson's rule what dose this rule state and also discuss how you would precede to determine optimum(5 marks)

1= Effective quality control

2= proactive and preactive strategies

3= prevention cost is better than failure cost and detected cost..why ?

4= Advantages of sequencing

5= scheduling definition

6= critical ratio

7= Problems of supply chain management

8= johnson's rule

9= challenges in applying SCM

10= slack time and overtime ka diff

11. dependent aur independent demand ka diff

Today paper 28-7-2013

- 1.define motion study?how it is useful?
- Coment on this statement:slack time or overtime is less severe in change the capacity than hiring”
- Define proactive strategy or active strategy and how they relate to mix strategy?
- Aik numerical tha eoq sa. 5 marks ka
- Write any three benefits of JIT (just in time) inventory system?
- Waiting lines sa aik qstn tha?
- Project management sa aik statement given thy is par comment krna tha

- Job design ky characteristics thy?
- What are the various measures, an operation manager needs to consider while evaluating the existing or proposed service system?
- Ppp ko define kr or example dny thy?
